

Anu Anand Annu

Software Engineer · Agentic AI & LLM Systems

anandannu10@gmail.com | +91 9102975237 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | Hyderabad, India

PROFESSIONAL SUMMARY

Software Engineer with **2+ years building production Agentic AI systems at GEP Worldwide**, processing thousands of global supplier records. Designed **LangGraph multi-agent pipelines** that cut onboarding from 12 days to 15 minutes and reduced manual effort by 90%. **IIT Tirupati CS graduate** with hands-on experience in **RAG, Azure Document Intelligence**, and **LLM orchestration** at enterprise scale. Seeking AI Engineer roles to architect intelligent automation systems at scale.

TECHNICAL SKILLS

Languages: Python, C#, JavaScript, TypeScript, SQL

Cloud & Azure: Azure Document Intelligence, Cognitive Services, Functions, Logic Apps

Databases: MySQL, SQL Server, MongoDB, Elasticsearch

Web & Tools: Angular, REST APIs, Docker, Git, Postman, CI/CD

AI / LLM Systems: Agentic AI, LangGraph, LangChain, LangSmith, RAG, OpenAI API, MCP, Prompt Engineering, Vector Databases

Backend: FastAPI, ASP.NET Core, Node.js, Microservices, Event-Driven Arch

PROFESSIONAL EXPERIENCE

Software Engineer

Aug 2023 – Present

GEP Worldwide · Hyderabad, India

- Architected an end-to-end supplier creation automation pipeline — spanning data auto-fill, multi-format document extraction, multilingual support, and real-time sanctions/adverse media screening — **achieving 95% validation accuracy** and **eliminating 90% of manual effort** across **5,000+ supplier records**.
- Architected a **LangGraph multi-agent** orchestration system with **persistent memory**, **cross-agent context sharing**, and real-time Brave Search API integration — compressing supplier onboarding from **12 days to 15 minutes (97% reduction)** across **5,000+ global suppliers**.
- Designed and deployed an **Intelligent Document Processing (IDP) Agent** using **Azure Document Intelligence** — parsing PDFs, scanned images, and structured forms with **96% field-extraction accuracy**, **eliminating 95% of manual data-entry**.
- Built a **Supplier Assistant RAG Agent** combining retrieval-augmented guidance, real-time third-party API tools, and contextual supplier data — reducing **support team dependency by ~60%**.
- Led a 4-engineer team** — owning sprint planning, risk mitigation, and cross-functional stakeholder alignment — **achieving 100% on-time delivery with zero production regressions**.
- Led Supplier AI releases with **zero production regressions**, owning end-to-end validation, sanity checks, and delivery timelines across cross-functional teams.
- Reduced development effort by 60%** through **strategic adoption of AI-powered development tools** and workflow automation, accelerating feature delivery and improving team productivity.
- Created Confluence documentation to support AI adoption and conducted KT sessions to enable faster onboarding and reduce team ramp-up time.

Software Engineer Intern

May 2022 – Jul 2022

GEP Worldwide · Remote

- Conducted R&D on translation/transliteration APIs; built optimized pipelines using **Python multiprocessing** and **Azure Cognitive Services**, automating multilingual workflows and **reducing manual effort by ~90%**.

PROJECTS

AI Portfolio — Agentic AI Platform

[GitHub](#) | [Live Demo](#)

Built a full-stack **Agentic AI portfolio** featuring **RAG**, tool orchestration, and memory-aware multi-turn conversations with negative input and tool-failure handling — developed in **Angular, Python, and Node.js** with vector-based retrieval and scalable APIs.

Deep RL for Automated Portfolio Management

[Documentation](#)

Implemented and benchmarked 6 deep RL algorithms (PPO, A2C, DDPG, TD3, SAC, and novel **Average Reward TRPO**) for stock portfolio management on DJIA and NIFTY 50; Average Reward TRPO **outperformed all discounted-reward baselines** in cumulative return. Validated via back-testing and live paper trading using the **Alpaca API**.

EDUCATION

B.Tech, Computer Science & Engineering · Indian Institute of Technology Tirupati · CGPA: 8.17 / 10

2019 – 2023
